

30 tube evacuated solar panel Romania

The Apricus ETC-30 collector is designed to be used in a wide variety of solar thermal (heat) applications in almost any climate. The evacuated tube and heat pipe technology provides very efficient and reliable solar thermal production in a simple to install design.

Companies - Evacuated tube collectors/vacuum tube collectors for solar panels - Romania. Refine my search: Return. Search results for : Romania. B2B Prospection list. Buy now. 2 Companies. Certified Suppliers. See products from our trusted international suppliers; See the ...

A single ETC-30 tube collector is ideal for residential households of 4-5 people, able to provide 60-80% of domestic hot water demand (depending on location). For commercial projects that demand a lot more hot water such as hotels, dormitories and car washes, multiple ETC-30 collectors can be connected to form a larger solar thermal array.

Eco-58-1800-30 Collector. This is our largest collector, using 30 of the larger 58mm x 1800mm tubes. Eco-nomical Evacuated Tube Solar Collector Features. EN12975 approved. High efficiency double walled borosilicate glass tubes. Barium getter gives clear indication of vacuum integrity. Quick assembly 2 piece reflector
