

500w solar panel Fiji

Who is island solar Fiji?

Island Solar Fiji is your trusted installer of quality solar systems and battery storage. We work with you to improve your power reliability and save the planet.

When was the first off-grid solar system installed in Fiji?

In May 2002 Clay Energy commissioned the first off-grid solar base station power system for Vodafone Fiji, which led to the rollout of these power systems to six mobile operators in the region. Clay Energy's first PV grid-connect system (18kW) was installed and commissioned in 2008, being the first in the region.

Who makes the best solar inverter in Fiji?

Our dedication to using trusted brands guarantees that our customers receive the highest standard of solar products and services in Fiji. Fronius, SunGrow, and Selectronic are renowned inverter manufacturers known for their exceptional quality and performance.

Why do businesses use solar energy in Fiji?

With on-site solar energy generation in Fiji, businesses can generate their own electricity and become less vulnerable to power outages, grid disruptions, and energy supply constraints. Many organisations in Fiji switch to solar energy as part of their commitment to sustainability and reducing their carbon footprint.

Why should you choose island solar Fiji?

Island Solar Fiji ensures its commitment to quality and reliability by exclusively partnering with trusted and reputable solar brands. Our dedication to using trusted brands guarantees that our customers receive the highest standard of solar products and services in Fiji.

Who makes the best solar inverter?

Fronius, SunGrow, and Selectronic are renowned inverter manufacturers known for their exceptional quality and performance. Fronius inverters are lauded for their innovative technology, efficiency, and robustness, making them a popular choice for residential and commercial solar installations worldwide.
