

Agratas energy storage solutions Barbados

Who makes agratas batteries?

Agratas designs and manufactures batteries for the automotive and energy sectors, with its first customers being Tata Group firms Jaguar Land Rover (JLR) and Tata Motors. The company also plans to create batteries for two-wheelers, commercial vehicles, and energy storage solutions.

What does agratas do?

Commenting on the collaboration, Tom Flack, CEO, Agratas, said: "We are fully committed towards delivering best-in-class battery solutions to our customers and helping to supercharge the global transition to electric mobility and clean energy storage.

Who will agratas support?

Agratas will also support its customers with the integration of cells into their applications, such as modules and packs. We have already secured two anchor customers, Tata Motors and JLR. They provide us with the scale to establish our global battery business. Agratas will be driven by our pursuit of green growth and technological progress.

Why did Tata invest 950 crore in agratas?

Tata Group has invested INR 950 crore into its battery manufacturing subsidiary, Agratas, as part of its strategy to bolster its presence in the new energy sector. Agratas is focused on developing cutting-edge manufacturing capabilities to support the automotive industry's transition to cleaner energy solutions.

What is Tata Technologies' eMobility partnership with agratas?

Reinforcing the collaboration with Agratas, Warren Harris, CEO & Managing Director, Tata Technologies, said: "Tata Technologies' vision of engineering a better world embodies a commitment to innovating sustainable solutions across the eMobility value chain that helps manufacturing companies accelerate their transition towards net zero.

How can Tata Technologies help agratas grow?

As Agratas scales up its operations, Tata Technologies is also helping Agratas to mobilise resources by facilitating recruitment of highly skilled individuals, enabling onboarding and supporting employee lifecycle activities during this critical growth phase.

Agratas Energy Storage Solutions Private Limited (TATA) is a leading provider of advanced energy storage solutions for various applications, including grid-scale storage, microgrids, and industrial backup power.

We will serve customers in the mobility and energy storage sectors, supplying best-in-class battery cells that meet the highest standards of quality, performance and sustainability. We will also support our customers with
