Why should you choose a solar system in Portugal?

With its sunny climate, Portugal, and especially the Algarve, is the perfect location to benefit from solar panels for both electricity and hot water. There is also a growing demand for battery solar systems, which allow you to store the energy for later use, and provide energy security for when EDP fails.

Can a solar system be installed in Portugal?

We can design and build a range of systems to suit your needs, from whole systems, to smaller solutions such as heat-pump installations. With its sunny climate, Portugal, and especially the Algarve, is the perfect location to benefit from solar panels for both electricity and hot water.

Do you need a battery to install solar panels in Portugal?

So you should only install the solar panel system based on your own consumption needs. It does make sense to install as well a battery. In Portugal you will need a lot of energy as well during the night. What are the requirements for selling solar energy? To sell surplus solar energy from your solar panels you need to meet these 5 requirements:

How much do solar panels cost in Portugal?

The prices for surplus solar energy range between 4 cent and 8 cent in Portugal. It does not really compensate the investment. So you should only install the solar panel system based on your own consumption needs. It does make sense to install as well a battery. In Portugal you will need a lot of energy as well during the night.

Can I sell surplus solar energy in Portugal?

Yes, it is possible. The important thing is that you sell the surplus solar energy that exceeds your own use and that you don't install the panel just to sell it. The prices for surplus solar energy range between 4 cent and 8 cent in Portugal. It does not really compensate the investment.
