

Alternative energy solar Isle of Man

Manx Solar Electrical undertakes every aspect of the installation, including annual servicing plus all requisite maintenance work. With utility prices rising and green issues climbing the agenda, there has never been a better time to invest in alternative energy sources.

Manx Solar Electrical are the Isle of Man's exclusive Stiebel Eltron service partners. We are also a Mitsubishi ASHP service partner and Dimplex approved and accredited installers. Our engineers install high performance JA Solar / REC and Sun Power solar modules together with SolarEdge optimisers and inverters.

Solar energy offers a priceless opportunity for the Isle of Man to reduce its carbon footprint and achieve energy independence. With the government's ambitious plans to decarbonise its electricity supply by 2030, solar energy is at the forefront of this green revolution.

We install JA Solar and Sun Power Photovoltaic systems, on-roof, in-roof or ground mounted. We always recommend to use Solar Edge optimisers and inverters to boost output. Solar panel electricity systems, also known as photovoltaics (PV), ...

At Nexiom Ltd, we are experts in the installation of renewable energy on the Isle of Man, including solar photovoltaic panels (Solar PV), which can be used to power your home, leading to savings on your electricity bills and reducing your carbon footprint.

go green promote clean energy technologies on The Isle of Man. Reduce your environmental impact, one carbon-footprint at a time. Save money and breathe cleaner Manx air by installing: Solar PV Panels,

Manx Solar Electrical Ltd is a business dedicated to helping the Island reduce its carbon footprint through renewable energy solutions. From solar panels to heat pumps and battery storage, Manx Solar Electrical is driving innovation in renewable technology.

Nexiom Ltd, Renewable Energy providers in the Isle of Man. Air & Ground Heat Pumps, Icynene Spray Insulation, Solar Energy, Electric Heating. With specific IOM Heatloss surveys, contact us today.

We want to use our experience and expertise in offshore wind to help the Isle of Man truly realise its ambitions and the objectives established under the Climate Change Plan 2022-27: 100% renewable electricity by 2030 and net-zero emissions by 2050.
