The Energy Storage Summit Central Eastern Europe has successfully concluded, bringing together key industry stakeholders from across the region to discuss the latest trends and opportunities in energy storage.

Stay up to date with the latest from content from across the Energy Storage event series. You can access everything from the confirmed attendee list to previous sessions that you may have missed. Check back to this page for the information you need to know about the Summit.

With the energy storage industry facing unprecedented growth across the globe, we are excited to launch our inaugural Energy Storage Summit Central Eastern Europe in Warsaw, Poland. We will be highlighting the opportunities, challenges and lessons learnt across various countries as the region readies itself for energy storage.

Flexibility and energy storage will be key to the grid of the future in Central Eastern Europe (CEE), speakers at an industry event said today.

As we move into 2024, storage assets are beginning to connect to the grid and countries are preparing for large-scale buildout. This Summit will explore in depth how "Central Eastern Europe has the opportunity to leapfrog developed markets" - ...

With regulatory hurdles one of the biggest challenges to large-scale deployment of Energy Storage in Central and Eastern Europe, what are the lessons learned from the UK and how can these be implemented to achieve the net zero goals within the region and enable energy storage?

The Energy Storage Summit Central Eastern Europe is set to return in September 2025 for its third edition, focusing on regional markets and the unique opportunities they present. This event will bring together key stakeholders from across the region to explore the latest trends in energy storage, with a focus on the increasing integration of ...
