

PV Tech Power's Simon Yuen talks to Slovenian solar company Bisol and the International Polar Foundation about features of renewable energy production at the research station which was ...

Since 2007 Creative Energies has been supporting Antarctic Logistics and Expeditions (ALE) with renewable energy power systems for their Antarctic operations. Creative Energies has designed, supplied and installed off grid solar power systems to run equipment as diverse as VHF Radio repeater stations, snow melters, and field communication ...

Uruguay has decided to power its Antarctic base with solar power. Marcelo Mula, executive director at the installer Tecnogroup, explains the challenges as the company prepares to upscale the...

By collecting the latest data available on renewable energy deployment in Antarctic stations, this article provides a snapshot of the progress towards fossil fuel-free facilities in the Antarctic, complementing the data published in the Council of Managers of National Antarctic Programs (COMNAP) Antarctic Station Catalogue (COMNAP 2017). In ...

Jinko Solar's business covers the core links of the photovoltaic industry chain, focusing on the R& D of integrated photovoltaic products and integrated clean energy solutions. At present, Jinko Solar's products serve more than 3,000 ...

Discover how solar and wind energy are revolutionizing research stations in Antarctica, reducing fuel consumption, and the environmental impact. Rooftop Solar Microinverter

In this article, we explore how solar can and is being used in the Arctic & Antarctica to help power essential research and keep those conducting that research comfortable and able to survive.

The first Australian solar farm in Antarctica was switched on at Casey research station in March 2019. The system of 105 solar panels, mounted on the northern wall of the "green store", provides 30 kW of renewable energy into the power grid.

Jinko Solar's business covers the core links of the photovoltaic industry chain, focusing on the R& D of integrated photovoltaic products and integrated clean energy solutions. At present, Jinko Solar's products serve more than 3,000 customers in more than 160 countries and regions around the world, and the company has ranked No.1 in global ...

Recently, Slovenian solar company Bisol has installed more solar modules to power the research station in Antarctica. Bisol says its 22kW project aims to meet the increasing energy needs of...
