Rubinar is one of the first companies providing solar energy solutions in Armenia. From the start of our journey, our priority has always been offering our customers a high-quality service experience.

SolARM presents its solutions in the field of solar energy, the goal is to develop the clean and renewable energy sector in Armenia, to ensure energy security, to use the great potential of Armenia's solar energy.

With everything ready, you can start installation. Begin with the racking system that will mount the solar panels to your roof. Measure the available roof space, then lay out the panel design on the ground to fit that area. You can use a chalk line on the roof as a guide. Install the roof mounting system per manufacturer instructions.

Armenia has a great potential for solar energy (the average annual value of solar energy flow on 1 m² horizontal surface is 1720 kWh/m², and a quarter of the territory of the republic is endowed with solar energy resources with an annual intensity of 1850 kWh/m²). Technology today allows us to capture and store solar energy, reducing energy ...
