

Aruba fidelity solar

Where does Aruba get its electricity from?

Aruba currently gets 15.4% of its electricity from renewable sources. The island has sufficient renewable energy resource potential, with excellent technical potential for ocean, wind, and solar renewable energy generation.

What is the cost of electricity in Aruba?

The energy landscape of Aruba, an autonomous member of the Kingdom of the Netherlands located off the coast of Venezuela, is outlined in this profile. Aruba's utility rates are approximately \$0.28 per kilowatt-hour (kWh) (below the Caribbean regional average of \$0.33/kWh).

How much energy does Aruba consume annually?

Aruba has an annual consumption of 990 gigawatt-hours (GWh). Currently, about 13% of its generation comes from a 30-MW wind project and 0.9% comes from waste-to-energy (WTE) biogas. An additional renewable capacity of 34 MW is planned or in progress. Aruba's installed generation capacity is 230 megawatts (MW) with an average load of 100 MW.

Who owns WEB Aruba and N.V. Elmar?

Both WEB Aruba and N.V. Elmar are owned by the government-owned holding company, Utilities Aruba. WEB Aruba is the power generation company on the island, and N.V. Elmar is the distribution company. They are independently managed. N.V. Elmar has four rate structures--residential customers are on an inverted block rate starting at \$0.25/kWh.

Does Aruba aim for sustainable development?

Aruba has announced its commitment to sustainable development, as stated in the 2011 document titled "The Green Gateway". During the Rio +20 United Nations Conference on Sustainable Development in 2012, the country declared its goal to achieve 100% renewable energy use by 2020.

How many MW will Aruba's biogas plant use?

Aruba's biogas plant is hoping to add 3 MW to 6 MW of capacity with a goal of using 70% of household waste. Production data for a 3.5-MW airport solar project are not yet available, and an additional 6 MW of solar capacity is planned for the residential and commercial sectors.

Why solar energy? - Clean, renewable energy - Add value to your property - Low maintenance - Makes money for you. We design and supply; - Solar power systems (PV) - Energy audits - Energy ...
