You can use our Solar PV + Battery Calculator to cost a Solar & Battery system and calculate savings. Mr Solar offer a turnkey solution for solar battery storage that includes; analysing your how you use, when and how, specifying the right size technologies for your home and installation.

## Battery for solar system price Norfolk Island

The average 5kWh solar battery typically costs  $\$5,000$  to buy and install on its own, or  $\$2,000$ - $\$3,000$  to install at the same time as a solar panel system. This is mainly due to the cost of the labour and inverter, which can be shared across the entire system, instead of focused solely on the battery.
