

Battery solar container system warranty

What is a warranty on a solar battery?

The warranty of a solar battery is often an indicator of how long you can expect your home battery to last. Defined by the number of cycles the battery is able to complete. Usually, more expensive batteries include longer warranties, as the battery is more durable.

When do solar battery warranties expire?

Solar battery warranties typically expire when the first of three conditions are met: A solar battery's warranted life is the number of years the manufacturer guarantees the performance of the battery, typically it is set at 10 years from the date of installation.

When does a warranty expire?

Warranty Term. The Limited Warranty shall commence from the Warranty Commencement Date for the respective Product, and expires (A) five (5) years thereafter or (B) 400,000 km, whichever is earlier or, if the extended Limited Warranty applies in the Purchase Order, expires (A) seven (7) years thereafter or (B) 500,000 km, whichever is earlier.

What is a CATL warranty?

CATL warrants that the capacity of the Product shall not fade to less than 80% of its nameplate capacity. The capacity fade shall be measured based on the ISO 12405-2:2012 (Electrically propelled road vehicles -- Test specification for lithium-ion traction battery packs and systems -- Part 2: High-energy applications). Warranty Term.
