SWS-PowerBox Hamburg, June 29, 2021. Yet another smart solution on the rails: In the shape of the SWS-PowerBox, VTG is adding to its offerings to deliver temperature-controlled rail freight transport. Mounted on the wheelset, a hydraulic pump and attached generator produce power while the train is moving. Optimized

The solutions offered today are based almost exclusively on fossil fuels and therefore have a negative impact on the environment. In contrast, our technologies offer sustainable, efficient and environmentally friendly solutions for the transportation of temperature-sensitive goods and logistics in general.
