By harnessing the abundant solar resources of the region, this project aligns with Fiji's national target of achieving 100% renewable electricity and its international commitments to reduce greenhouse gas emissions by 30% by 2030, thus ...

5 &#0183; WELLINGTON, New Zealand (AP) -- Seven foreign tourists were hospitalized in Fiji after drinking cocktails at a resort bar, Fijian authorities said on Monday.

This broadly matches up with recent analysis by BloombergNEF which found that BESS costs have fallen 2% in the last six months, as well as anecdotal evidence of reductions after spikes in 2022. Compared to 2022, the national laboratory says the BESS costs will fall 47%, 32% and 16% by 2030 in its low, mid and high cost projections, respectively.

The global energy storage market is growing faster than ever. Deployments in 2023 came in at 44GW/96GWh, a nearly threefold increase from a year ago and the largest year-on-year jump on record. BloombergNEF expects 67GW/155GWh will be added in 2024,...

The falling costs of grid-scale battery energy storage system (BESS) technology, a topic that has been much discussed recently on Energy-Storage news, will support growth, BNEF said. It found that as of February 2024, a 2-hour duration turnkey BESS in China cost an average of US\$115/kWh, a 43% decrease from a year before.
