The BLF51-5 LV battery system is ideal for new installation of household energy storage. With high energy density and wall- mounted solution, BLF51-5 LV battery system is space-saving for indoor and outdoor

installation.

Lithium-ion batteries are in wide use as they are so versatile, suitable for applications ranging from small electronics to electric vehicles and grid connected storage facilities. Their high efficiency and high energy density, combined with long lifetime, have been pivotal in enabling the electrification of transport.
