Who is Bramble Energy Limited?

Bramble Energy Limited |13,126 followers on LinkedIn. Powering Net Zero |Bramble is a technology company on a mission to drive transformational change in the energy sector worldwide. With their PCB-X platform, the company is accelerating global decarbonisation and creating viable clean energy.

Why should you choose Bramble energy?

Bramble Energy's ability to leverage the global high-volume PCB industry means that we are the first fuel cell company with the manufacturing capacity to supply gigawatts of fuel cell hardware, something the battery industry has spent many years and \$B's to achieve.

Is Bramble energy growing?

Is Bramble Energy experiencing growth? Bramble Energy may be growing as it has significantly increased its workforce, expanding from eight employees in 2020 to over 80 employees currently. The company has also successfully raised \$35 million from investors, indicating strong financial backing and confidence from the investment community.

How much money has Bramble energy raised?

The company has also successfully raised \$35 million from investors, indicating strong financial backing and confidence from the investment community. Additionally, Bramble Energy has launched the world's first hydrogen-electric boat, demonstrating innovation and the introduction of new products to the market.

How many investors does Bramble energy have?

Bramble Energy has 8 investors including Advanced Propulsion Centre UK and Kiko Ventures. How much funding has Bramble Energy raised to date? Bramble Energy has raised . When was the last funding round for Bramble Energy? Bramble Energy closed its last funding round on May 9, 2023 from a Grant round. Who are Bramble Energy's competitors?

When did Bramble energy close?

Bramble Energy closed its last funding round on May 9, 2023 from a Grant round. Who are Bramble Energy's competitors? Alternatives and possible competitors to Bramble Energy may include Glydways, Sunfire, and Elcogen.

Bramble Energy's new company headquarters based in Crawley, West Sussex, spans nearly 34,000 square feet and is three-times larger than previous HQ. New state-of-the-art facility represents Bramble Energy's ...

Resources. 10.09.24. EU Hydrogen Week 18th - 22nd November 2024. In November, Bramble will be exhibiting at EU Hydrogen Week in Brussels. European Hydrogen Week is a melting pot of powerful and influential leaders looking for the next big thing. Bringing together industry, policy-makers, academia and

stakeholders from across the entire ...

As a founder of Bramble Energy I often get asked how the company began and what we are trying to achieve. I can't speak for my co-founders but I can attempt to shed light on my motivations. ... All Resources. Sign up to our Newsletter. 02.12.24. Hyvolution Paris ...

Power the hydrogen economy with PCB electrolyzers. Bramble's electrolyzers break down barriers to production. By harnessing manufacturing processes from the electronics industry, we produce high performance, very low-cost and massively scalable solutions.

We are an impassioned team, rewiring an industry to make clean energy technology accessible and scalable. By leveraging already viable production methods, we are rapidly paving the way ...

Bramble Energy is a leading technology company specializing in the development and commercialization of innovative hydrogen fuel cell solutions. Leveraging its unique and patented printed circuit board (PCB) fuel cell technology, Bramble Energy aims to revolutionize the fuel cell industry by providing cost-effective, scalable, and easily ...

Bramble is accelerating global decarbonisation and creating viable clean energy technology, with the PCB-X(TM) platform. PCB-X(TM) delivers carbon-neutral energy with unlimited applications. Our technology is low-cost, globally scalable and has immediate uses in ...

Bramble Energy is an innovator energy technology company that designs and manufactures high-performance, low-cost, and fuel cell stack. The company ability to leverage the global high-volume PCB industry means that they are the first fuel cell company with the manufacturing capacity to supply gigawatts of fuel cell hardware, something the battery

We are an impassioned team, rewiring an industry to make clean energy technology accessible and scalable. By leveraging already viable production methods, we are rapidly paving the way for a world powered by clean energy.

Bramble Energy is an integrated energy solutions company adept at helping organizations maximize their profits by providing them with cost-effective energy supply and utilization solutions that are most optimized for their needs.

Bramble Energy is an innovator energy technology company that designs and manufactures high-performance, low-cost, and fuel cell stack. The company ability to leverage the global high-volume PCB industry means that they are ...

London-based fuel cell company Bramble Energy has closed a £35million investment round to help further expand its game changing capabilities in solving key challenges in the production and implementation

of hydrogen ...

Bramble Energy is pleased to announce a new partnership with BOC Ltd (a part of the Linde Group) and TCP Ltd, to develop portable, hydrogen fuel cell powered LED lighting towers. The 20 W hydrogen fuelled light towers will launch late in 2018. Bramble Energy Ltd () is a spin out fuel cell company from Imperial College and UCL.

Making clean energy technology accessible. Bramble empowers scalable clean energy technology. We were motivated to change the world and accelerate life-changing transformation in the energy sector. Inspired initially by the potential to develop hydrogen, we came up with a way to bring clean energy to the market today.

20.11.23. Delivering System Architecture Advantages of the PCBFC(TM) At Bramble, our goal is to empower the hydrogen economy, whatever the application.
