

Cambodia baterÃ-as casa

The government of Cambodia aims to reach 415 MW of installed photovoltaic (PV) power capacity by 2020. In 2019, the country had 155 MW. The utility-scale battery will support the integration of more renewable energy, and provide transmission congestion relief and balancing of supply and demand.

Khmer solar has been stocking and installing maintenance free deep cycle industrial batteries since 1998. We have sold thousands of batteries to individual customers and telecom companies throughout Cambodia.
