

Christmas Island megasol energy

How can PRL group lead Christmas Island towards a sustainable future?

Our ambition is to help lead Christmas Island towards a sustainable future based on renewable energy. PRL Group have committed towards rooftop solar for all its owned properties on the island, and the design and development of a large-scale solar energy system for Christmas Island.

Did Christmas Island propose a wave generator?

This is all a bit late, and sad, several years back the residents of Christmas Island proposed a wave generator and had and were denied the opportunity and so now at the 11th hour they propose a poor cousin.

Who is Christmas Island phosphate?

Christmas Island Phosphates has been in operation for over 30 years and has exported over 16 million tonnes of rock phosphate to customers in Malaysia, Indonesia, Australia and New Zealand. It is the Island's largest private business and employer, and continues to be the backbone of the Christmas Island economy.

What can Christmas Island do for tourism?

The study includes a detailed assessment of the natural assets of Christmas Island and will assess the potential tourism opportunities suitable for remote island tourism development in the region. The work will produce a range of potential tourism offerings for the island including eco, agricultural and adventure tourism.

We are currently installing 2 power stations on Kiritimati (Christmas Island). Kiritimati is part of the Republic of Kiribati. The project is well underway with power stations in London and banana ...
