

# Cocos Keeling Islands alfen the battery

Does Alfen have a mobile battery storage solution?

For those projects, Alfen is deploying its containerised BESS solution, The Battery Elements, but the company also recently launched a new iteration of its mobile battery storage product called The Battery Mobile, putting 720kWh of storage capacity into a 10ft container on wheels.

Why are the Cocos Islands called the Keeling Islands?

The territory's dual name (official since the islands' incorporation into Australia in 1955) reflects that the islands have historically been known as either the Cocos Islands or the Keeling Islands. The territory consists of two atolls made up of 27 coral islands, of which only two - West Island and Home Island - are inhabited.

How do the Cocos (Keeling) Islands communicate?

The Cocos (Keeling) Islands have access to a range of modern communication services. Digital television stations are broadcast from Western Australia via satellite. A local radio station, 6CKI - Voice of the Cocos (Keeling) Islands, is staffed by community volunteers and provides some local content.

Where can I watch the Cocos (Keeling) Islands?

It is available in paper and electronic formats. The Cocos (Keeling) Islands receives a range of digital channels from Western Australia via satellite and is broadcast from the Airport Building on the West Island on the following VHF frequencies: ABC6, SBS7, WAW8, WOW10 and WDW11

Who discovered the Cocos (Keeling) Islands?

British sea captain William KEELING discovered the Cocos (Keeling) Islands in 1609, and they were named for their coconut trees in 1622. Some maps began referring to them as the Keeling Islands in 1703. In 1825, Scottish trader John CLUNIES-ROSS was trying to get to Christmas Island but was blown off course and landed on Cocos (Keeling) Islands.

Is there plastic pollution on the Cocos (Keeling) Islands?

“Significant plastic accumulation on the Cocos (Keeling) Islands, Australia” Scientific Reports. 9 (Article number 7102): 7102. Bibcode: 2019NatSR...9.7102L. doi: 10.1038/s41598-019-43375-4. PMC 6522509. PMID 31097730. ^ McGrath, Matt (16 May 2019). “Plastic pollution: Flip-flop tide engulfs 'paradise' island” BBC News. Retrieved 7 October 2019.

4 &#0183; Located approximately 3,000km north-west of Perth in the Indian Ocean, the low-lying Cocos (Keeling) Islands are Australia's most remote community. Climate change is already affecting the islands and their 600 residents' way of life - with increasing challenges from rising sea levels, coastal erosion and inundation, and tropical storms a regular occurrence.
