

Canadian Solar Energy Colombia SAS ESP was recently pronounced the winner in the tender process for the full delivery of Colombia's first utility-scale battery energy storage system (BESS). The company offered roughly COP 72.1 billion (USD 18.8m/EUR 15.9m) to realise the project from the design to operation and maintenance.

Vertically-integrated solar PV company Canadian Solar has been awarded a 45MW / 45MWh battery storage project by Colombia's Ministry of Energy and Mines.

Canadian Solar Inc., a solar PV module manufacturer in Canada, has won its first-ever utility-scale battery storage project in Colombia with a capacity of 45 MWh. The project was awarded in the public tender floated by Colombia's Ministry of Energy and Mines via its affiliate UPME, the Mining, and Energy Planning Unit.

Celsia Solar Palmira 2 es una granja solar de autogeneración que tiene una capacidad instalada de 9,9 MW, de la cual se le entrega al cliente 4,9 MW y el resto al Sistema Interconectado Nacional, para beneficio de todos los colombianos. Dispone de 23.610 paneles solares ubicados en forma de techo, lo que permite incrementar la potencia en un 5% respecto a la ubicación ...

Canadian Solar Inc. yesterday announced it has been awarded the first utility-scale battery storage project in Colombia. The 45 megawatt-hour project was awarded in a public tender launched by Colombia's Ministry of Energy and Mines, via its affiliate UPME, the Mining and Energy Planning Unit.

Colombian energy company Celsia has announced the launch of what it described as the first solar energy storage system in the country, at the Celsia Solar Palmira 2 PV farm, in Valle del Cauca. Celsia said the 1 MW/2 MWh lithium ferro-phosphate battery energy storage system (BESS) is operating for two hours from 6 p.m. and is "adjustable to any time of the night."

Latin American power utility Celsia SA said on Monday that Colombia's first solar energy storage, using a lithium iron phosphate (LFP) battery, will start operations at a 9.9-MW solar farm in the department of Valle del Cauca in the coming weeks.

Utility and independent power producer (IPP) Celestia has deployed a solar co-located lithium iron phosphate (LFP) BESS in Colombia. Celsia has deployed the battery energy storage system (BESS) at its 9.9MW Celsia Solar Palmira 2 farm in Valle del Cauca to help increase the generation capacity of the plant, shifting
