In a significant stride toward sustainable energy, the Union of the Comoros announces a revised call for expressions of interest for the Comoros Solar Energy Access Project (PAESC). Financed by the World Bank, this initiative aims to bring reliable and eco-friendly electricity to the nation.

The Union of Comoros is taking decisive steps to address its long-standing energy challenges by launching the Comoros Solar Energy Access Project. Supported by a \$43 million funding package from the World Bank, this ambitious initiative aims to harness the country's solar potential by developing solar power plants to create a more stable and ...

At Fibon Solar, we provide a full range of services designed to help you transit seamlessly to clean, renewable energy. From consultation to ongoing support, our comprehensive offerings ensure that your solar power system is tailored to meet your specific needs, delivering reliable energy solutions for homes, businesses, and industries.
