The EU is providing around \$10.7m in funding to enhance the penetration of renewable energy in rural communities across Madagascar, Niger, Senegal, and Ghana. Private sector gets involved. While such humanitarian initiatives play an important role in boosting Madagascar's renewable energy sector, the involvement of the private sector is critical.

Madagascar, 26 Mars 2021. Green Energy Solutions (GES), joint-venture des groupes AXIAN et GreenYellow, avec la participation de Colas Madagascar, vont réaliser une centrale solaire hybride associant technologies photovoltaïque et thermique, au sein de la carrière d'Ambokatra située à Toamasina.

Numerous private energy companies invested in the construction of PV projects in Madagascar in 2022. For example, Green Energy Solutions (GES Madagascar) joined forces with independent power producer (IPP) GreenYellow and Axian Group in September 2022 to ...

GES, a joint venture of the AXIAN Group and GreenYellow Group, has signed a seven-year energy agreement with construction materials supplier Colas Madagascar to supply electricity to meet 100% of the energy needs of the Ambokatra materials production site at Toamasina using a new hybrid solution combining photovoltaic and thermal technologies.
