Who is CWP Europe?

Since 2021, CWP Europe has operated as a joint venture between CWP Global, a leading global renewable energy company, and Mercuria Energy Trading, one of the largest independent energy traders with revenue of more than USD\$140 billion.

What does CWP do?

Our business has two key focus areas: - Grid-connected renewables in Europe. Founded in 2007, the CWP group began its journey as a developer of windfarms in Southeast Europe.

Who is CWP renewables?

Founded in 2007, the CWP group began its journey as a developer of windfarms in Southeast Europe. Building on two key early successes - the first wind farm in Serbia (Cibuk 1,158 MW) and the largest on-shore wind farm in Europe (Fantanele-Cogealac, 600 MW) - the company expanded its operations to Australia, under the name CWP Renewables.

Why is CWP global expanding?

CWP's consistent expansion is an accurate demonstration of its passion for helping the SEE region develop its clean energy potential and become fully independent from fossil fuels. CWP Global possesses the tenacity to change the green energy landscape.

What makes CWP a good company?

Stamenov's conviction in renewable energy resources filters throughout the company, as CWP takes great pride in developing utility scale wind and solar parks across Southeast Europe (SEE), providing effective solutions to its sizeable pollution problems. "The system has such a high dependency on poor quality lignite and coal.

Which countries is CWP developing a 6 gigawatt portfolio?

CWP is currently developing a six gigawatt (GW) portfolio of wind and solar projects in Serbia, Bulgaria, Romania, Montenegro, Albania, Bosnia and Herzegovina, Slovenia, Moldova, North Macedonia and Ukraine.

CWP Global is a renewable energy developer active across five continents. We are an innovator in renewable energy development, inspired to provide energy solutions to build a sustainable future. Our CWP Europe business unit is currently pursuing 6+GW of utility-scale, grid-connected wind, solar and battery storage projects across Southeast Europe.

CWP is the pioneering renewable energy developer in Southeast Europe, having successfully realised some of the largest wind farms in the territory. "I believe that there is no more important job today than to help society completely distance itself from polluting fossil fuels," says Nikola Stamenov, Director of Business
