20kW Battery Storage... Our 20kW high voltage battery storage units are the best way to provide larger energy demands in your household or for commercial properties.

Could lithium mining be a game-changer for Prague?

Lithium mining could be a real game-changer for Prague, because according to an analysis conducted by the Czech Chamber of Commerce, the country has exhausted all sources of growth and faces potential economic stagnation in the coming years. Can lithium supercharge the Czech economy?

Will Czech Republic cooperate with German state of Saxony on lithium extraction?

The Czech Republic has already concluded a Memorandum of Cooperation with the German state of Saxony about possible cooperation on lithium extraction. On the Czech side, extraction will be managed by the majority state-owned electricity producer CEZ.

The extracted lithium could be used to produce batteries for electric cars. Minister Škela said that negotiations with three investors in a car battery factory were at an advanced stage. One project concerns Pilsen's Line neighborhood, while another could be in the Středočeský územní plán Labem Region.

It's hoping to forge a deal that would tie in with a project by CEZ to build a lithium battery production factory that would use lithium mined in the Ore mountains in the north. The Czech Minister of Industry Karel Havlíček told Hospodářské noviny confirmed ongoing negotiations.
