Who is deep cycle systems?

Deep Cycle Systems Pty Ltd is a battery technology company located in Tamborine Mountain, Australia. We specialise in the design and manufacture of lithium battery related technologies such as Battery Management Systems, Cell Management Systems, DC-DC charging systems and solar regulators.

What is a DCS deep cycle lithium battery?

DCS deep cycle Lithium Batteries deliver safe lithium phosphate energy storage solutions for a wide variety of applications. They are a similar sized battery to lead-acid batteries, which makes upgrading to DCS Lithium Batteries a simple task, whilst offering six times the battery life and less than half the weight of lead-acid batteries.

What is a deep cycle lithium battery?

DCS have designed the Deep cycle Lithium Battery range to be more superior in every aspect with our uniquely bolted cylindrical cell design. This not only ensures the highest possible cell conductivity for long life - up to 5000 cycles at 100% depth of discharge (DOD), but also provides superior cooling performance.

We pride ourselves on our professionalism and dedication to our customers. Our experienced team is available now to assist you with your battery requirements and questions. Lithium Battery Storage Systems for Solar PV, Wind, Hydro, Marine and Recreational Vehicles. Deep Cycle Batteries and Chargers 12V, 24V and 48V.

Deep Cycle Systems Designed & engineered in Australia, DCS produces some of the best lithium batteries on the market today. Available in slimline, extra-high capacity, and smart-enabled ...

DCS Lithium Batteries are designed for deep-cycle (cyclic) applications and are completely dry batteries, making them spill-proof, leak-proof, and significantly safer than lead-acid batteries. DCS uses only the latest A grade lithium cell technologies obtained from specialised manufacturers that are well ahead of the industry in the R& D of ...
