We offer a host of Services and Solutions to bring down your Energy Consumption through Energy Audit, Power Sourcing and Advisory and Express Energy Audit. ENERCO offers expertise to manufacturers in saving production costs through energy conservation and energy efficiency. Check out how Enerco saved 10% on energy bills for a manufacturer.

Who is Enerco Energy?

Enerco Energy is one of Ireland's leading wind energy companies who develop, construct and operate projects that contribute towards the creation of a sustainable future. Solar has become a much more viable energy source, thanks to both the consistently falling costs and the increasing generational capacities of solar modules.

Is Enerco a sustainable company?

Sustainability and Connected Planet is not just another aspect but a necessity now for a better future of mankind. Enerco is a Company which believes in true global connectivity with a global footprint and expanding. What we Offer?

Why do we use solar panels at Enerco HQ?

Since 2000 we have utilized solar panels to provide a significant contribution towards our electricity demand at Enerco HQ. We believe that solar energy is becoming an increasingly economic choice as the technology gets cheaper.

What makes Enerco unique?

ENERCO delivers value to its Customers based on the vast experience across diverse sectors such as Power, Sustainability, Manufacturing Excellence through Digital Transformation and Information Technology. We bring in global experience in engineering, design and management.

What is Enerco's vision for a smart and Connected Planet?

We at Enerco visualize a Smart and Connected planet and not just Companies or Devices. It helps in carving a better tomorrow for generations to come. Our expertise has enabled Companies to become sustainable and smarter through energy saving and use of greener sources of power such as Solar PV.
