

Eurowind energy Eritrea

Who is Eurowind energy?

Eurowind Energy develops, constructs, and operates renewable energy parks. We are dedicated to local long-term solutions, and we believe that the future of energy supply is renewable, clean, and sustainable. Eurowind Energy A/S is a Danish company that specialises in the development, construction, and operation of renewable energy parks.

How many GW does Eurowind energy have?

Furthermore, as of July 1st, 2024, our development portfolio includes more than 53 GW. At Eurowind Energy A/S, we believe that the future of energy supply is local, circular, and sustainable.

How much electricity does Eritrea have?

It is also working towards raising the share of electricity generation from renewable energy. According to the 2019 World Bank Global Electrification Database, 50.3 percent of Eritreans have access to electricity, with electrification reaching 75.6 percent and 36.6 percent of the urban and rural population, respectively.

What is Eritrea's Nationally Determined Contribution (NDC)?

Eritrea's Nationally Determined Contribution (NDC) identifies a shift from fossil fuel-based energy generation to electricity generation mixes using renewable sources and reducing transmission and distribution losses. It also encourages environmentally sound technologies to reduce greenhouse gas emissions.

Can Eritrea lead the way to a sustainable future?

The world is at the tipping point for bolder steps and immediate aggressive actions. Eritrea, a country with negligible emission contribution, can potentially lead the way to secure a safe and sustainable future by taking a different path from previous development trajectories.

Can Eritrea reverse climatic trends?

Despite these challenges, Eritrea's accession to the global environment and energy conventions are among the country's attempts to reverse the worsening climatic trends.

The project will be built and operated by Tenevo Solar Technologies EAD, a joint stock company which Eurowind Energy is among the partners participating in. Image: Jeppe Bøje Nielsen and...
