

Falkland Islands solar victoria morwell

A 70MW solar and battery project proposed to help fill the gap left by Victoria's retiring coal-fired power stations has applied for state development approval.

Morwell Solar PV Park is a ground-mounted solar project which is planned over 170 hectares. The project is expected to supply enough clean energy to power 23,000 households, to offset 146,500t of carbon dioxide emissions (CO₂) a year.

Thai-owned Ratch Australia has revealed plans to develop a 70 MW solar PV and large-scale battery energy storage project in the heart of Victoria's coal country after receiving planning approval from the state government for the \$105 million Morwell Solar Farm.

The proposed 70MW Morwell solar farm, located in the heart of Victoria's coal-heavy Latrobe Valley, has been granted planning approval as Ratch Australia takes over the development of the project.

It will sit on a 1,100-hectare property between Morwell and Traralgon in southeastern Victoria and is situated in Gippsland, a region identified by the Australian Energy Market Operator (AEMO)...

The \$651 million project will be built on a 1,100 hectare property between Morwell and Traralgon, "in the heart of the Latrobe Valley," according to the project website.

If you're considering installing solar panels for your Morwell home (and/or a battery), this page offers useful related information and interesting statistics for Morwell and the 3840 postcode area in Victoria. If Morwell isn't your location, you can search for installation information relevant to your town or suburb here:

The project involves the development of a 70 Morwell Solar Farm with a battery energy storage facility located in the towns of Morwell and Churchill in Latrobe Valley in Victoria, Australia. The batte...
