

Fiji sunover solar

Why do organisations in Fiji switch to solar energy?

The answer is simple. Reduce costs, maintain control and look after Fiji. Organisations in Fiji choose to go solar for their energy for a variety of reasons, including financial, environmental, and strategic benefits. One of the primary reasons organisations in Fiji switch to solar energy is to save money on their energy bills.

Who is island solar Fiji?

Island Solar Fiji is your trusted installer of quality solar systems and battery storage. We work with you to improve your power reliability and save the planet.

Why do we need solar power in Fiji?

By harnessing the abundant Fijian sunshine, we aim to power our pristine Fijian paradise with clean renewable solar energy for generations to come, thereby reducing Fiji's reliance on expensive and polluting diesel generation for electricity.

Who makes the best solar inverter in Fiji?

Our dedication to using trusted brands guarantees that our customers receive the highest standard of solar products and services in Fiji. Fronius, Sungrow, and Selectronic are renowned inverter manufacturers known for their exceptional quality and performance.

Who owns the Fiji Sun?

The Fiji Sun was launched in September 1999 and is owned by Sun News Limited. The major shareholder, the CJ Patel Group of Companies, is a multi-sector company with food procurement and distribution operations across Fiji and the Pacific (Narsey 7/2/2013).

How can GGGI support a solar project in Taveuni?

Prepare the tender documents for the solar plant. Secure financial support for the project. GGGI is currently conducting a full feasibility study for this project. The 1.55 MW solar PV project is the first of two phases required to achieve the target of 100% electricity generation from renewables in Taveuni.

Solar Fiji is comprised of a team of dedicated and hardworking professionals committed to advancing sustainable energy solutions in Fiji. We are specialize in the design, supply, installation and service of stand alone and grid connect ...

Fiji is embarking on a project to bring solar power to its remote islands. It starts by creating tenders for mini-grid construction, and employing tools to customize energy systems for each community ensuring each ...
