

Gibraltar high density mobile storage systems

Our FlexShelf MHD is an innovative mobile shelving system for space saving storage with perfect overview. MHD stands for "mobile high density" - which means our FlexShelf MHD is the perfect solution for storing a lot of things in a small space while remaining "mobile";.

It glides on high-density rails, powered by mechanical or electrical mechanisms, maximising floor space and enabling easy, tailored storage configurations. In addition to our mobile shelving systems, we also offer a diverse range of complementary storage solutions, including static shelving units, mezzanine floors, and high-density storage systems.

High-density mobile storage systems are advanced storage units that operate on a track-and-carriage system. Unlike traditional static shelves, these systems are designed to move laterally along floor tracks, eliminating the need for fixed aisles between shelves.
