Gibraltar serves customers primarily throughout North America. Comprehensive information about Gibraltar can be found on its website at gibraltar1.com. Media Contact: Ashleigh Kent, akent@terrasmart.com. Utility industry news and analysis for energy professionals.

What is TerraSmart & RBI Solar?

BUFFALO, N.Y. -- Nov. 8, 2021-- RBI Solar, SolarBOS, Sunfig and TerraSmart, all part of the renewable energy group of Gibraltar, (NASDAQ: ROCK), today announced they are unifying under a shared brand, Terrasmart, to deliver a seamless customer experience through integrated product lines and services.

Fusing the history, experience, and strengths of four brands, the new Terrasmart will provide leading solar technologies and smart solutions across the project lifecycle to mitigate risks and ...

Gibraltar's rooftops provide a valuable opportunity to host solar based renewable energy production, in the form of, but not limited to, PV and SWH panels. The efficient and effective adaptive reuse of - this significant resource is sure to have a positive impact towards the achievement of a Net Zero future.

Our photovoltaic (PV) solar racking equipment is best-in-class, ranging from in-ground fixed-tilt and single-axis tracker mounts to roof and carport mounts. We also offer project management capabilities designed to serve project developers and system integrators.

Gibraltar enjoys a Mediterranean climate, with a conservatively estimated solar PV capacity factor of 21%, around double that of Great Britain. Revenues generated from the project would benefit from strong support, offering investors attractive yields with limited risk.

renewable energy options are possible for Gibraltar and deserve analysis. Solar energy involves directly harnessing the sun's emissions of heat and light to generate electricity. Two types of electricity generation that use solar power are: Solar thermal (also used to heat water) Solar photovoltaic (PV, solar panels)
