Gobel Power has mastered core technologies from battery modules, BMS to complete vehicle battery pack development, which enhance the safety, cost, energy density, recycle life and other performance indicators.

For what it's worth, I have a Goblepower DIY box on order with a PACE 200A BMS. It was quite a bit more expensive than the options that included JK BMS, but I just really didn't want to deal with software issues.

I am considering Gobel Power 16S 200A BMS for a 48V 304Ah (Eve MB30) LiFePo4 battery. I was initially considering JK BMS but think Gobel BMS might be better because it comes with heat sink which might make it more durable, plus seems to have several useful features like setting balance voltage threshold etc., not making the battery disappear ...

Gobel Power RN150 BMS Pace 200A BMS Kit. For 16s/51.2V LiFePO4 battery Max charge and discharge current 150A/200A Communication ports: CAN, RS485 and RS232 Multifunction Display, power button, dry relay contacts, active current limiter, safety features, battery gauge, all connection cables included.

The Gobel Power 51.2V 280Ah Battery Case Kit is a comprehensive DIY kit designed for those who wish to build their own high-capacity LiFePO4 battery. This kit is specifically designed for a 16S 280Ah LiFePO4 cell configuration, which can build a 51.2V 280Ah battery. The kit includes a battery case and

I ordered 32 cells (Eve MB30) and 2 Gobel Power diy cases from Gobel. I chatted with &quot;Ellie&quot; on their website for a few days about what I wanted and to confirm the Gobel Power case came with the new JK BMS or not and so on (which it does they claim) and they sent me a quote/invoice to my email for the total price shipped to my address, (nearly ...

A BMS is a sophisticated electronic device that plays a vital role in ensuring the safe, efficient, and reliable operation of rechargeable batteries. By continuously monitoring and controlling the parameters of a battery, a BMS ensures optimal performance, prolongs its lifespan, and reduces the risk of premature failure.

Jens (MeineEnergiewende) und Andreas (OffGridGarage) haben auf ihren YT-Kanälen das RN150 von Gobelpower sehr positiv dargestellt. Also habe ich mir das BMS selbst bestellt. Die Erfahrungen der beiden kann ich bestätigen - zumindest teilweise:...

We have LiFePO4 and Li-ion Battery solution for special vehicles. With optimized Battery Management System (BMS), our battery provides formidable power to fulfill task even in harsh environment.
