What is Grameen Shakti program?

It is one of the largest and fastest growing programs of its type in the world. Presently, Grameen Shakti deals with three technologies: solar home systems (SHSs), biogas systems and improved cooking stoves (ICS). This article looks into the prominent features of Grameen Shakti program which have primarily contributed to its success.

How has Grameen Shakti grown over the last 14 years?

The program has grown at a remarkable rate over the last 14 years. Having installed over 520,000 solar home systems, over 14,300 biogas systems and 172,000 improved cooking stoves, Grameen Shakti has reached to around three 3.5 million people. The credit of its accomplishments goes to its innovative business model.

How does Grameen Shakti sell?

Grameen Shakti sells through its own salespeople at over 1000 offices across Bangladesh. Each office has 'social engineers' who do door-to-door demonstrations, and technicians offering after-sales service. Improved cookstoves are also sold through other organizations such as BRAC.

How many people benefit from Grameen Shakti?

Owing to its rapidly expanding capacity in terms of trained human resource and infrastructure, over the years, these technologies have experienced a remarkable growth. It is estimated that around 3.5 million people are benefiting from the services of Grameen Shakti. 4.1. Renewable technologies being offered 4.1.1. Solar home systems

Are Grameen Shakti solar systems worth it?

In the long term (systems have a 25 year warranty), Grameen Shakti's solar systems save users a great deal of money. However, the upfront cost (around \$510 for a 50w system) would be prohibitive for many buyers if they had to pay all at once.

How many Grameen Shakti centers are there?

The establishment of GTCs has been a very successful initiative and there are now 46 GTCs across the country. These centers have greatly contributed to the rapid growth and expansion of Grameen Shakti in recent years.

The Grameen Shakti renewable energy program includes: solar energy through their Solar Home System (SHS); biogas for use as cooking fuel, electricity production and organic fertilizer; and improved cooking stoves (ICS).

Grameen Shakti is one of the world's largest and fastest growing renewable energy companies. Since 1996 it has installed over 30MW of power, brought energy to over 4 million people, and sold nearly 900,000 energy
