

Guernsey solar solutions group

5 · In 2023 Guernsey Electricity worked in conjunction with The Little Green Energy Company to install the vast community-scale solar array at Grow Limited's newly redeveloped headquarters. The 310 photovoltaic (PV) panels will produce 129-kilowatt peak power (kWp). That's enough electricity to supply power to approximately 35 homes.

I'm self-employed and run a small business that specialises in solar photovoltaic and bespoke renewable energy solutions. I have a small team of roofers and scaffolders experienced and trained in undertaking every type of solar installation.

We offer a range of affordable solar PV solutions that are easy to install and maintain. Our solar power systems are designed to integrate seamlessly into your home, and we offer a variety of panel options to suit your aesthetic preferences.

Solar installations for domestic residential properties are growing in size, so we've put together some new category solutions, high and low power home so that we can differentiate the types of properties we deal with.

Guernsey Electricity are delighted to have worked with The Little Green Energy Company to install a vast community-scale solar array on the roof of the newly reopened GROW Ltd headquarters. The newly installed 310 ...

Efficient and environmentally friendly, the use of solar PV or solar panels in Guernsey is on the up. A fantastic investment, they are a great way to reduce your carbon footprint and make your home or property more energy efficient and eco-friendly, whilst also offering a greater financial return than savings in the bank.
