

Handheld solar container fan

How do solar roofblasters work for Conex containers?

Our Solar RoofBlasters vents for Conex Containers bring in fresh, cooler air and expel the hot air allowing air to circulate throughout the container anytime the sun is shining. The fresh air will also help remove odors, gas fumes, etc from smelling up the container. Proper ventilation helps mediate moisture buildup through uniform air movement.

Can I use a bigair45 fan on a shipping container?

Disclaimer: To be used in conjunction with BigAir45 vents for HAZMAT storage so that there is adequate passive ventilation at times when the solar-powered fan is not in operation. Engineered to be installed anywhere on shipping container, van trailers & all wood construction building rooftops 10 W monocrystalline solar panel. No on or off switch!

Can a 400 CFM fan be used in hazardous materials?

400 CFM provides a complete air exchange every 3 minutes in a 20 ft container and every 6 minutes in a 40 ft container under ideal conditions. Quiet Operation, Fully Assembled - No On or Off switch! In most jurisdictions, low voltage (12v) fans can be used in hazardous materials (HAZMAT) settings without the need for explosion-proof electrical.

Can a low voltage fan be used in hazardous materials?

In most jurisdictions, low voltage (12v) fans can be used in hazardous materials (HAZMAT) settings without the need for explosion-proof electrical. Disclaimer: To be used in conjunction with BigAir45 vents for HAZMAT storage so that there is adequate passive ventilation at times when the solar-powered fan is not in operation.
