

Indonesia solar system prices in

The average pricing of a solar system in Indonesia is IDR 15 - 21 million per kWp installed and even less if for larger installations. For the batteries, you can expect to pay an additional IDR 10 - 12 million per kWh for LifePO4 lithium batteries, which give you the biggest bang for your buck.

As mentioned earlier, the exact cost of a 1kW solar panel system in Indonesia can vary depending on several factors. Here's a breakdown to help you understand the range. Estimated Range: IDR 15 million - IDR 21 million (approximately USD 1,000 - USD 1,500)

The Cost of Solar Panels in Indonesia. Across the world, the cost of solar panels is declining, and Indonesia is no different. The price of solar modules dropped from USD 4.12 per watt in 2008 to USD 0.17 per watt in 2020. This translates to lower costs for solar energy, which are around USD 0.04 per kWh.

So, how much does it cost to install solar panels in Indonesia? The cost depends on your panel type, roof type and size of your solar system. Overall, the price of installing grid-tiered solar systems can range from 40 million IDR for small houses, 90 mil. IDR for medium sized townhouses to 150 mil. IDR or more for larger bungalows.

The SUN Rental scheme does not apply to SUNterra as it accommodates the installation of solar energy system for homes, small offices, and other small-scale buildings under 200 kWp, and has a different financing scheme from SUN Energy. You can see an overview of prices for each SUNterra service and product through Tokopedia and BliBli SUNterra.

According to Rystad Energy's analysis, the cost of large-scale ground-mounted solar projects in Indonesia has declined from about \$2.6/MW in 2013 to \$0.8/MW in 2024, a price that is in the range of the total global cost of solar (\$0.5 to \$1.8/MW).

With abundant sunshine in Indonesia, many homeowners often wonder: wouldn't it be great to harness all this sun to generate my own energy? With our custom designed solar photovoltaic (PV) systems, this is now easier and more lucrative than ever before.

Solar panels in Indonesia are now more affordable than ever, making it both financially and environmentally attractive. By using solar power you can save on your electricity bills and reduce your CO2 emissions at the same time! It is also a great way to be energy-independent, shall you decide to go with an off-grid solar system.
