

Akuo plans to deploy 200 MWh of battery storage in New Caledonia, supplying 50 MW for three hours per day over 12 years. The facility will primarily support the operation of nickel mines.

We are mainly active in New Caledonia and Wallis and Futuna through our retail activities. We are also a major player in the renewable electricity generation sector. We lead several community outreach initiatives in these countries. Key Figures

TotalEnergies SE TTE announced that it will develop clean energy and energy storage projects in New Caledonia. Within the 2022-2025 time period, TotalEnergies will develop ground-based ...

TotalEnergies SE TTE announced that it will develop clean energy and energy storage projects in New Caledonia. Within the 2022-2025 time period, TotalEnergies will ...

The French overseas territory of New Caledonia has hailed the switch-on of a 16MWp solar farm, with battery energy storage to be later attached, and another standalone 5MWh battery...

The solar energy combined with energy storage will replace coal-generated electricity, advancing Prony Resources New Caledonia's goal of reaching carbon neutrality by 2040. Most of the projects will be built on property owned by the Grand Sud hydrometallurgical plant and ultimately cover almost two-thirds of its electricity consumption.

Total Quadran now manages 7 solar power plants in New Caledonia with a cumulative capacity of 50MW. This latest New Caledonia solar project is the second Boulouparis project, joining a 11 MW ...

The plant will feature a lithium-ion energy storage system (ESS) with a capacity of nearly 10 MW. The combination of a large photovoltaic system with an ESS allows to contribute to improving quality and reliability of the electricity grid ...

We are mainly active in New Caledonia and Wallis and Futuna through our retail activities. We are also a major player in the renewable electricity generation sector. We lead several community outreach initiatives in these countries. Key ...

Noumea, December 20, 2021 - TotalEnergies will develop a series of photovoltaic and energy storage projects in New Caledonia in order to deliver decarbonized electricity via a 25-year ...
