

Israel aggrego battery storage

Why choose industrial energy storage systems with Aggreko?

Electrical energy storage that's mobile and easy to transport to your site as and when you need it allows us to provide your business with innovative, reliable power - fast. No CAPEX - saving you money in the long run, boosting your returns

What is a fully integrated battery storage system?

Our fully integrated, battery storage is a ready-to-install energy system in a standard container. Complete with batteries, inverter, HVAC, fire protection and auxiliary components, all tested by our experts and operated by the smartest software on the market. Single units can be easily combined to deliver more power and energy capacity.

How can a battery storage solution help your business?

Our battery storage solutions can help to power your operations, while reducing fuel costs and cutting carbon emissions more than ever before. Whether you want to power a microgrid, add reliability to a hybrid system or simply optimise your business case through smart energy management, we have simple solutions.

Why should you choose a containerised generator with battery storage?

Secure and more reliable - more resistant to disruptions, keeping you on track. A forward-thinking approach brings an integrated, battery energy storage solution as your partner in power. At Aggreko, our specialists in decentralised power can get a containerised generator with battery storage to your business whenever and wherever you need it.

Aggreko, Houston, has introduced two mid-node -- 500 kW/250 kWh and 250 kW/575 kWh -- battery energy storage systems (BESS) to its Greener Upgrades line of temporary power options. The new storage systems are designed for on and off-grid applications while also enabling reduced emissions, energy consumption and costs, the company said.

Aggreko, a global leader in energy solutions, has unveiled two new mid-sized Battery Energy Storage Systems (BESS), designed to meet the increasing demand for efficient, flexible, and environmentally friendly power ...

To support regional companies making the transition to a greener future, Aggreko has introduced two new mid-size commercial Battery Energy Storage Systems (BESS) for smarter energy management. The newly launched range of fully integrated plug-and-play BESS solutions come in two sizes - 500 KW and 250 KW, to suit a wide range of industrial ...

Discover Aggreko's latest mid-size battery energy storage units and their significance for the oil and gas industry. These new units, with capacities of 250 kW/575 kWh and 500 kW/250 kWh, offer versatile applications and advanced features that set them apart from other solutions in the market
