

Jamaica tejas solar

Does Tejas Borja use solar energy?

Thanks to these technological developments, Tejas Borja has expanded its catalogue to include a range of products which harvest solar energy. These products integrate perfectly into the flat ceramic tiles in the "Flat" range so that they have minimal impact on the original design of the project.

Which Tejas Borja Solar tiles are compatible?

Tejas Borja's SOLAR range As another option in the Tejas Borja solar range, we offer a format compatible with our other flat ceramic tile model, the Flat-10. The SOLAR FLAT-10 tile is the same size as 5 ceramic tiles with the same model name and incorporates CIGS technology in its photovoltaic panel.

What is Tejas Borja?

In this context, Tejas Borja is joining a new revolution in roofing by having developed a single product which combines both style and energy efficiency. Thanks to these technological developments, Tejas Borja has expanded its catalogue to include a range of products which harvest solar energy.

What makes a Tejas Borja a durable roof?

Durability and performance over time is reinforced by the structure of the product itself and the use of glass-glass panel (double tempered glass) that ensures a durable and watertight encapsulation. Find out more about: Tejas Borja SOLAR product range | Products that are perfectly integrated into flat tile roofs from Tejas Borja "Flat" range.

Why should you choose Tejas Borja?

With an output of more than 143 Wp/sq. m. (power /sq. m.), the benefits of the installation can be maximized without altering the appearance and harmony of the home. Tejas Borja's solar solutions achieve electricity bill savings, helping to reduce the carbon footprint on the planet by not using other natural resources for energy.

What is Solar Flat 5XL ceramic tile?

The SOLAR FLAT-5XL ceramic tile is available in two solar energy harvesting formats: monocrystalline and CIGS. The two types of solar panels use different technologies to better adapt to each project's energy generation requirements and available space. SOLAR Flat-5XL ceramic tile SOLAR Flat-5XL technical specifications

The solar panel technology used in the SOLARES tiles from Tejas Borja is: Solar FLAT-5XL Monocrystalline and Solar FLAT-10 CIGS. The term monocrystalline (monocrystalline silicon or "c-Si") is well known in conventional photovoltaic panels, but what is CIGS technology?

The SOLAR FLAT-10 roof tile is designed to blend seamlessly into your roof. Thanks to its integration, it confers all the benefits of capturing renewable photovoltaic solar energy as well as presenting excellent

Solar Fanatic Ltd is a Jamaican-based business that does installations of Solar PV systems. We also do General contractual electrical projects. Solar & Renewable Energy

SOLAR Roof Tiles Harvest clean energy without compromising aesthetic. Tejas Borja SOLAR roof tiles are perfectly integrated into flat tile roofs from the Tejas Borja "Flat" range. Download the SOLAR Roof Tiles Brochure

SolarSpecialistJA is powered by Green Lantan Energy; Jamaica's best source for solar energy systems. Our customers enjoy the lowest prices for Solar Water Heaters, Solar Panels, Charge Controllers, Inverters, Deep Cycle ...

At Tejas Borja, we have a technical team who can give advice on the design and specifications of a roof installation using SOLAR tiles, depending on the needs and requirements of each project. We carry out feasibility studies to optimise the installation ...

SolarSpecialistJA is powered by Green Lantan Energy; Jamaica's best source for solar energy systems. Our customers enjoy the lowest prices for Solar Water Heaters, Solar Panels, Charge Controllers, Inverters, Deep Cycle Batteries, Lithium Batteries, Automatic battery watering kits, solar battery cables, Solar LED Street Lights ...

Jamaica seeks to diversify and modernise its electricity sources by pivoting away from the traditional fossil-fuelled past towards renewable energy that is sustainable and affordable. This means a major increase in the deployment of rooftop solar, allowing individuals and businesses to invest directly in their own energy solutions.

The SOLAR FLAT-10 roof tile is designed to blend seamlessly into your roof. Thanks to its integration, it confers all the benefits of capturing renewable photovoltaic solar energy as well as presenting excellent reliability in terms of watertightness throughout the roof.

The Jamaica has a high solar potential and set a renewable energy mix target of 30% by 2030. Presently Jamaica's energy mix is comprised of 14% renewable energy on the public grid. Its electrical demand peaks at 660MW and its electricity prices are comparable relative to ...
