

Jersey panel solar transparente

We can now offer a solar panel installation service to complement our roofing services. Our engineers can design, install and commission solar panel arrays that incorporate the latest advancements in solar technology and efficiency.

We provide Solar PV to commercial and residential properties. SunWorks have powered more homes with solar around Jersey than any other firm. We are Jersey's only dedicated PV provider so you can be sure of great service and the best suited PV system.

Solar thermal panels convert light to heat (more specifically, hot water) and photovoltaic (PV) panels convert it to electricity. Light is available to us every day, to a greater or lesser extent, and both thermal and PV panels produce energy ...

Solar PV explained. Solar photovoltaic (PV) systems are made up of panels that fit on top of your roof, but you can also install them on the ground or fit solar tiles. Solar PV cells are made from layers of semi-conducting material, usually silicon. When sunlight shines on the panels or tiles, electrons create a flow of electricity.

Retrofitting Solar to Your Existing Roof. SunWorks offer a select range of specialist solar products which can be selected for almost any roof type. Our solar panels come from reputable brands, featuring robust warranties that extend up to 25 years.

Solar PV needs little maintenance - you'll just need to keep the panels relatively clean and make sure trees don't begin to overshadow them. In the UK panels that are tilted at 15° or more have the additional benefit of being cleaned by rainfall to ensure optimal performance.

Solar PV just provides onsite renewable electricity so you still need an appliance to do the actual heating such as panel radiators or Air Source Heat pump. Solar PV is not well suited to providing electricity to heating appliances, which typically operate when it's cold and dark October & March (when solar is at its least productive)

Harness the energy from our own domestic solar installation to power your home's appliances and heat your hot water with our unique Smart Solar offer, when switching to electric heating. Jersey's Rooftop Revolution
