Le lancement de votre transition énergétique par la mise en place de panneaux solaires devra se faire selon un processus simple qui se développera en différentes étapes. Chez Solar Project au Luxembourg, nous avons décidé de suivre ce processus pour vous garantir une excellente prise en charge de même qu'une performance parfaite.

We install complete photovoltaics systems. Discover the best solar solution with our experts to meet your energy needs. We provide thorough surveying services to ensure your solar panels adheres to all necessary requirements structurally, municipally and legally.

Solar energy systems in Luxembourg. SolarCells is the first producer of photovoltaic panels in Luxembourg, located in Hollerich. We manufacture high-quality panels using European components, certified with IEC standards, offering yields exceeding 400 Wc.

We are redefining the energy future of Luxembourg households, offering the most advanced technologies and efficient solutions in the field of renewable energy. Photovoltaics represent savings, ecology, and an investment in your and your family's future.

The best way to install solar panels in Luxembourg is to analyse three key factors: Roof pitch : The ideal angle for solar panels in the region is between 25 and 35 degrees to the horizontal, optimising exposure to the sun's rays all year round.

As part of Luxembourg's Integrated National Energy and Climate Plan (PNEC), the nation aims to increase its share of renewable energy from 11% as of 2020 to 25% by 2030. The share of electricity generated by solar panels would need to reach 1.112 GWh by 2030.

L'installation optimale de panneaux solaires au Luxembourg nécessite une analyse de trois facteurs-clés : L'inclinaison du toit : l'angle idéal pour les panneaux solaires dans la région varie entre 25 et 35 degrés par rapport à l'horizontale, optimisant ainsi l'exposition aux rayons solaires tout au long de l'année.

Sudstrom positions itself as a producer of renewable energy in Luxembourg by fully finance solar plants over 200 m² of roof space or car parks with more than 70 spaces. Solar plants between 20-500 kWp (area from 200 m²);

Luxembourg solar setups

Solpalux is your trusted partner for solar panel installation in Luxembourg. We provide tailored solutions for residential and commercial clients, ensuring energy independence and sustainability. Experience quality and efficiency with our innovative solar energy solutions.

Afin d'éviter les pertes, votre installation photovoltaïque au Luxembourg devra être raccordée au réseau électrique pour y injecter l'excédent d'électricité produite. Quels sont les avantages et les inconvénients du photovoltaïque ?
