What is Solarcentury Africa?

We've been part of the rapid evolution that has made solar photovoltaic (PV) the mainstream energy source that it is today. In sub-Saharan Africa, Solarcentury Africa is a market leader in the development of solar PV and storage projects using smart energy technology and controls.

What is Solarcentury Africa & Sino energy doing?

Solarcentury Africa and Sino Energy achieves Financial Close on t... The 20 MWp solar PV plant will be the first fully merchant independent power producer trading all of its renewable power... Solarcentury Africa achieves financial close on a 14 MWh battery...

Does BB energy own Solarcentury Africa?

Since BB Energy acquired Solarcentury Africa in March 2021 it has become a key part of BB Energy's renewable ambition. Solarcentury Africa's integrated business model means it builds, owns and operates solar projects as well as managing the financial and commercial stages such as equity, debt, power purchase agreements and energy management.

What does Solarcentury do in South Africa?

Our East Africa projects showcase our African experience, knowledge and expertise across a range of solar applications, including pioneering hybrid and off-grid systems. Solarcentury has been active in South Africa since 2013, originally focused on rooftop projects.

How many solar projects are there in Africa?

Solarcentury Africa has over 800 MW of renewable projects under development through exclusive agreements, and an additional 4GW of solar projects in the pipeline.

Does Solarcentury Africa have a multi-megawatt project?

To date, Solarcentury Africa has developed, designed, installed and delivered multi-megawatt projects across several African countries. In October 2023, Solarcentury Africa completed its 11.25 MWp solar and 8.5 MWh battery hybrid system at the Balama Graphite Mine in Mozambique.

Solarcentury Africa is more than a developer. We operate an integrated model which means we also build, own and operate solar projects. Importantly, we manage the key financial and commercial stages - from equity and debt, to the PPA (power purchase agreement) or BOOT (Build, Own, Operate and Transfer), and the energy management.

Solarcentury Africa champions Africa's adoption of solar energy as a renewable resource, which has seen the company pioneer its way across the continent. "What sets SCA apart is our approach as an energy partner rather than merely a consultant to our clients," says Jason De Carteret, Head of SCA.
