

# Mali cegasa batteries

What makes Cegasa a good battery?

Cegasa's unique formulation makes it possible to offer an exceptionally energy dense battery. Up to five times more energy in the same space and up to eight times longer life. Thanks to the high stability of the output voltage regardless of the discharge state of the battery, we can utilise the battery's energy to the fullest. 02.

Why should you choose zinc air alkaline Cegasa batteries?

One ZINC-AIR ALKALINE CEGASA battery provides more energy than eight batteries from other brands. In other words, fewer batteries to recycle and fewer batteries to transport and store. 03. Very long battery life

How long can a Cegasa battery last?

CEGASA's technology doesn't require any maintenance. It has been developed so that it's ready to use and doesn't require any additional care. The battery is supplied with the ventilation holes sealed, so that it doesn't start working until the seal is removed. It can be stored for two years with minimal loss of capacity.

Are Cegasa batteries flammable?

None of the battery components are flammable and no gas emissions are released. CEGASA's unique technology is totally safe. It's built using a formulation of solid state elements that eliminates the risk of liquid leakage. The nature of its composition ensures intrinsic safety with no risk of explosion or gas emissions.

Are Cegasa batteries recyclable?

At CEGASA, we've developed a formulation that allows us to manufacture batteries without polluting elements that are harmful to nature. It doesn't contain any highly polluting heavy metals, as is the case with other technologies that use cadmium, mercury, or lead. That is why our batteries are 100% recyclable.

Who is Cegasa?

Founded in 1934, Cegasa is one of Europe's leading manufacturers of electrochemical energy storage solutions. From our plant in the Basque Country we continuously develop innovative solutions, thanks to the state-of-the-art technology of our facilities and the extensive experience of our R&D team.

Cegasa's unique formula makes it possible to offer a battery with excellent energy density. A battery that has up to 5 times more power with the same volume and can last up to 8 times longer. The high output voltage stability ensures that no matter how much the battery is discharged, the power in the battery is used to the maximum.

Cegasa's unique formulation makes it possible to offer an exceptionally energy dense battery. Up to five times more energy in the same space and up to eight times longer life. Thanks to the high stability of the output voltage regardless ...

## Mali cegasa batteries

One single battery for the entire service life of your machine. The Cegasa Lithium-Ion batteries ensure the highest number of operational cycles, just one battery for the full life of your machine. It provides 15 years useful service under heavy work conditions and up to ...

One single battery for the entire service life of your machine. The Cegasa Lithium-Ion batteries ensure the highest number of operational cycles, just one battery for the full life of your machine. It provides 15 years useful service under heavy ...

Cegasa's unique formulation makes it possible to offer an exceptionally energy dense battery. Up to five times more energy in the same space and up to eight times longer life. Thanks to the high stability of the output voltage regardless of the discharge state of the battery, we can utilise the battery's energy to the fullest.

Zinc-Air Batteries. We're world leaders in the manufacture of zinc-air batteries, the best solution for low-current applications requiring a very long life without maintenance or supervision.

Cegasa's unique formula makes it possible to offer a battery with excellent energy density. A battery that has up to 5 times more power with the same volume and can last up to 8 times longer. The high output voltage stability ensures that no ...

cegasa battery storage for home storage and commercial power storage. Lithium iron phosphate batteries for maximum operational reliability! The cegasa eBick, cegasa eBick Ultra are the perfect solution for your storage system. Whether on-grid or OFF-grid, residential or commercial, cegasa battery storage systems can be configured to fit most uses.

We manufacture batteries that are easily configurable and adaptable to any application. We also provide our clients with an experienced engineering team for the development of tailor-made solutions.

Cegasa designs and manufactures Battery Packs, Battery Modules, Battery Banks and All-in-one equipment. Applied to Industrial Traction, Mobility, Stationary and Renewable Systems.

CEGASA Lithium-Ion batteries allow you to cut the running costs of your business. Saving up to 30% electricity consumption due to greater charge/discharge efficiency. Eliminate 100% of your maintenance costs.
