

Noark solar Guinea-Bissau

International finance institution the World Bank will support the development of Guinea-Bissau's first solar power plants with a \$35 million grant through its Solar Energy Scale-up and Access project.

Rural Areas of Guinea Bissau are set to receive electricity through off-grid solar technologies through a project called the Regional Off-Grid Electricity Access Project (ROGEAP). ROGEAP will be implemented by the Economic Community of West African States (ECOWAS) and funded by the World Bank.

The World Bank is supporting the development of Guinea-Bissau's first solar power plants, aiming to decarbonise electricity production and boost electrification. Under the Solar Energy and Access to Electricity Development Project, the World Bank will assist Guinea-Bissau until 2030 and has already approved a USD \$30 million grant.

The World Bank, IDA, ESMAP, and GCF are funding Guinea-Bissau's first solar power plants with a \$78.15 million investment to support decarbonization and expand electricity access. The project will build solar plants near Bissau and install mini-grids on the Bijag's islands, thereby providing electricity to 1,200 households and SMEs.

Project information: [Guinea Bissau] [Solar Energy Scale Up and Access Project] [P174576] Project Implementation agency: [Unidade de Implementa#231;ão dos Projectos] Date of the Procurement Plan: [October 18, 2021] Period covered by this Procurement Plan: [from October 18, 2021 to June 30, 2022]

Learn about the World Bank's \$35 million grant to Guinea-Bissau for a solar energy project aimed at enhancing electricity access and sustainability through solar power generation and infrastructure development.

WASHINGTON, JUNE 6, 2024 - The World Bank's Board of Executive Directors approved a \$35 million grant to enable solar power generation and increase access to electricity in Guinea-Bissau. The Guinea-Bissau Solar Energy Scale-up and Access Project will work on the development of solar energy generation and network enhancement, including the ...

Washington -- The World Bank's Board of Executive Directors approved a \$35 million grant to enable solar power generation and increase access to electricity in Guinea-Bissau. The Guinea-Bissau Solar Energy Scale-up and Access Project will work on the development of solar energy generation and network enhancement, including the preparation and ...

Electricity-starved Guinea Bissau will get \$48m from the International Development Association, Green Climate Fund and Esmap to catalyse solar energy generation and improve on low levels of electricity access.

Noark solar Guinea-Bissau

In addition, Guinea-Bissau is eligible for technical assistance and a line of credit to develop its market of off-grid solar home systems pursuant to the Regional Off-Grid Electricity Access Project (ROGEAP, P160708).
