

How will a new solar plant help Macedonia?

Andi Aranitasi, EBRD Head of North Macedonia, said: "The new solar plant will help the country, which faces severe air pollution from coal, to reduce its reliance on ageing coal-fired infrastructure. It will also generate cheap electricity in times of very high market prices.

Who built the first solar plant in North Macedonia?

The 10MW solar plant, built on the site of the spent Oslomej lignite coal mine, was constructed by the public company JSC Elektrani na Severna Makedonija (ESM). This is the company's first solar plant in North Macedonia, developed with a view to diversifying energy sources and supporting decarbonisation.

Is North Macedonia a good place to invest in green energy?

Dimitar Kovacevski, Prime Minister of North Macedonia: "It is really a great pleasure to be here today, where once a big environmental polluter was located and now we are producing green energy. The benefits of this investment are manifold.

What is Elektrani na Severna Makedonija doing?

Government-controlled power utility Elektrani na Severna Makedonija is preparing to install two solar power plants of 50 MW each at its coal complex REK Oslomej. It is a public-private partnership with Fortis and Solarpro. The arrays will be in former open-cast mines.

Is North Macedonia a coal dependant country?

Julian Vassallo, Deputy Head of EU Delegation, said: "The transition of North Macedonia from a coal dependant country starts today, by making a step towards the implementation of the Green Agenda for the Western Balkans, in line with the European Green Deal.

Does the EBRD invest in North Macedonia?

The EBRD is a major institutional investor in North Macedonia. To date, it has invested more than EUR 2.2 billion in 159 projects across the country. Supporting green energy is a priority for the Bank, as it addresses one of the country's most pressing challenges.

North Macedonian electricity producer ESM has launched a tender for the design, procurement, construction, commissioning and handover of two solar plants totaling 30 MW.

The first large-scale solar plant in North Macedonia - financed with the support of the European Union, WBIF bilateral donors and the European Bank for Reconstruction and Development (EBRD) has been connected to the power ...

4 · Given the relatively high level of share of coal-based power generation in North Macedonia,
