

Who built the first solar plant in North Macedonia?

The 10MW solar plant,built on the site of the spent Oslomej lignite coal mine,was constructed by the public company JSC Elektrani na Severna Makedonija(ESM). This is the company's first solar plant in North Macedonia,developed with a view to diversifying energy sources and supporting decarbonisation.

How will a new solar plant help Macedonia?

Andi Aranitasi,EBRD Head of North Macedonia,said: "The new solar plant will help the country,which faces severe air pollution from coal,to reduce its reliance on ageing coal-fired infrastructure. It will also generate cheap electricity in times of very high market prices.

Is North Macedonia a good place to invest in green energy?

Dimitar Kovacevski, Prime Minister of North Macedonia: "It is really a great pleasure to be here today, where once a big environmental polluter was located and now we are producing green energy. The benefits of this investment are manifold.

How did Italy support the Oslomej 1 solar power plant?

In addition,Italy supported the project by financing the technical feasibility assessment. The Oslomej 1 solar power plant is one of the 21 flagship projects in the Western Balkan region,selected for the EU financing in 2022 through the WBIF.

What is the Oslomej 1 solar power plant?

The Oslomej 1 solar photovoltaic power plant is part of a larger effort to clean up the site,diversify energy sources and support decarbonisation. The EUR8.8 million investment is supported jointly by WBIF bilateral donors and the EU,in line with the 'Team Europe' approach.

3 · December 19 (SeeNews) - North Macedonia's electricity producer ESM said it has signed an agreement with the European Bank for Reconstruction and Development (EBRD) for an EU grant of nearly 5 million euro (\$5.2 million) for ...

The European Bank for Reconstruction and Development (EBRD) has announced that North Macedonia's state-owned power utility, ESM, has initiated a tender process for the construction of two new solar power plants, with a total combined capacity of 30 MW.

3 · The German development bank KfW has approved a EUR55 million loan to North Macedonia's state-owned power utility, ESM, to finance the construction of the Bitola 2 solar power plant and the expansion of the Bogdanci wind farm. According to a statement from the North Macedonian Ministry of Finance, the state-backed loan has a 15-year term,

3 · December 19 (SeeNews) - North Macedonia's electricity producer ESM said it has signed an agreement with the European Bank for Reconstruction and Development (EBRD) for an EU grant of nearly 5 million euro (\$5.2 million) for the construction of two photovoltaic (PV) plants with a combined capacity of 30 MW.

4 · Given the relatively high level of share of coal-based power generation in North Macedonia, EBRD aims to assist the country with financial support and technical cooperation to diversify generation sources and decrease electricity import dependence, with solar and wind being the two priority renewable sources to be developed in the short and ...

4 · By the end of 2023, North Macedonia had deployed 535 MW of solar capacity, a significant increase from 190 MW at the end of 2022, according to the International Renewable Energy Agency (IRENA).

North Macedonia has invited offers for participation in a public-private partnership with state-owned electricity company ESM for a 100 MW solar park project worth an estimated 80 million euro (\$87.2 million), the government said on Wednesday.

The first large-scale solar plant in North Macedonia - financed with the support of the European Union, WBIF bilateral donors and the European Bank for Reconstruction and Development (EBRD) has been connected to the power ...

North Macedonian state-owned power utility Elektrani na Severna Makedonija published a call for a contractor. The selected company would build two solar power facilities, of 10 MW and 20 MW in capacity, in two areas with coal mines and thermal power plants.

3 · North Macedonian power utility Elektrani na Severna Makedonija obtained a loan for the construction of solar power plant Bitola 2 and the expansion of its Bogdanci wind farm. It also received a donation for photovoltaic projects Bitola 1 and Oslomej 2.

4 · Given the relatively high level of share of coal-based power generation in North Macedonia, EBRD aims to assist the country with financial support and technical cooperation to diversify generation sources and decrease electricity ...

North Macedonian electricity producer ESM has launched a tender for the design, procurement, construction, commissioning and handover of two solar plants totaling 30 MW.
