What are other storage failure incidents?

Other Storage Failure Incidents - this table tracks incidents that do not fit the criteria for the first table. This could include failures involving the manufacturing, transportation, storage, and recycling of energy storage. Residential energy storage system failures are not currently tracked.

Is cold weather affecting electric buses in Norway?

Allegedly, cold weather in Norway is severely affecting the vehicles' range and battery life, according to multiple social media users and international tabloids. "The cold has paralysed the new electric bus fleet in Oslo. That's millions just sitting idle due to -7 to -14 Celcius temperature," tweeted one account. "Another electric bus failure."

What are the different types of energy storage failure incidents?

Stationary Energy Storage Failure Incidents - this table tracks utility-scale and commercial and industrial (C&I) failures. Other Storage Failure Incidents - this table tracks incidents that do not fit the criteria for the first table. This could include failures involving the manufacturing, transportation, storage, and recycling of energy storage.

Why did Oslo's electric buses stop working?

Multiple social media users and certain tabloids have been sharing the news that Oslo's new fleet of electric buses has all stopped working due to freezing temperatures. But what really happened? Is Oslo, one of the world's leading green cities in terms of emissions, currently at a standstill because all of its electric buses have broken down?

How cold has paralysed the new electric bus fleet in Oslo?

"The cold has paralysed the new electric bus fleet in Oslo. That's millions just sitting idle due to -7 to -14 Celcius temperature," tweeted one account. "Another electric bus failure. They can't run below -11C! 320 buses taken out of commission," quipped another user.

Are electric buses being cancelled in Oslo?

Euronews reached out to Ruter, the company that operates the electric buses in Oslo. In an email, a spokesperson called the allegations "an extreme exaggeration... We cancelled, on average, between 50 and 100 departures, out of more than 4,000 daily departures, for a few days."
