How much solar energy does Portugal produce?

In a bold announcement, Portugal recently surpassed its entire solar output from 2023 by September 2024, celebrating a record year for solar energy production. According to REN (Rede de Energia Nacional), the country generated more than 3.99 TWh of solar energy in just the first nine months, exceeding last year's total of 3.6 TWh.

Is solar a good option for Portugal?

Solar is well suited to support Portugal's National Energy and Climate Plan's 2030 targets due to its scalability, short deployment cycles and having the lowest electricity generation costs in history. It is a cost-effective solution to meet the urgent need of rising energy demand through local and low-carbon solutions.

Will there be a solar auction in Portugal?

Solar power interest is growing exponentially in Portugal. João Galamba, the State Secretary for Energy, announced that more solar auctions would take place, including one in the second quarter of 2020 as well as that there were over 80,000 MW (80 GW) in projects awaiting analysis and approval.

Can Portugal be Europe's leading solar power market?

Other opportunities mentioned include the up-and-coming rooftop, commercial and industrial (C&I) and floating solar segments. All in all, the Portuguese market possesses immense potential to be one of Europe's leading solar power markets. The market is still developing, but has high hopes for the future.

Can small-scale solar PV work in Portugal?

It proved that the technology could work reliably in Portugal. Small-scale solar PV was supported by an attractive feed-in tariff scheme in the early 2010s and, as with Portugal's experience with rooftop solar thermal energy, there were many willing adopters.

How much solar power does Portugal have in 2020?

At the end of 2020, solar power installed capacity totalled 1.03 GW and represented 3.6% of total power generation in 2020. Portugal has set a goal of between 8.1 GW and 9.9 GW in installed capacity by 2030. The Serpa solar power plant is an 11 megawatt plant covered 150 acres (0.61 km<sup>2</sup>) and employs 52,000 PV panels.

This report lists the top Portugal Solar Energy companies based on the 2023 & 2024 market share reports. Mordor Intelligence expert advisors conducted extensive research and identified these ...
