Experience the power of the sun with our cutting-edge solar solutions in Belize. Our expert team is committed to providing affordable and reliable solar energy for your home or business. Say goodbye to high electricity bills and embrace a sustainable future.

Turnkey photovoltaic systems from a single source. High quality compenants is a given. As a total company, we advise, plan and install photovoltaic systems and provide solutions for storage systems, charging stations for e-mobility and other optimization options (emergency power supply, self-consumption optimization, etc.).

We design, supply and install solar technology across Stann Creek and southern Belize. From Caye to jungle retreat, Solar Heat and Cool can create systems that power your entire home, heat your water or cool your spaces.

Power control system solar Belize

Lower Energy Bills: Reduces monthly electricity costs by offsetting power usage with solar production. Sell Excess Power: Potential to earn credits or payments for excess energy sent back to the BEL grid. Minimal Maintenance: Fewer components than off-grid systems, resulting in easier maintenance.

Pro Solar Engineering is the only company in Belize to offer all 3 major renewable energy sources-solar, wind and hydro power, including hybrid systems.
