What's new at 3s Swiss solar?

Ribbon-cutting ceremony at 3S Swiss Solar's new factory in Worb. Image by: 3S Swiss Solar Solutions AG. 3S Swiss Solar Solutions AG has officially opened its second photovoltaic (PV) module production facility in its home country, with the expectation to start first deliveries from the site at the end of the month.

Who is 3S Swiss solar solutions?

For over two decades, 3S Swiss Solar Solutions has been at the forefront of the solar energy revolution. Their journey has been characterized by a relentless pursuit of innovation in photovoltaic technology, especially in the realm of Building-Integrated Photovoltaics (BIPV).

Where is 3S solar based?

The 250 MW of production capacity was installed in 11 months. 3S Swiss Solar will make its 3S solar modules at the new facility and will keep running its existing factory in Thun, in the Bernese Oberland region of Switzerland. The Worb plant could be potentially expanded to produce larger volumes of PV modules, as well as larger cell formats.

Why should you choose 3s Swiss solar solutions?

3S Swiss Solar Solutions' approach combines technology with a commitment to environmental sustainability, reflecting our dedication to reducing the carbon footprint of buildings and advancing towards a cleaner, greener future.

Why should you choose 3s solar solutions?

They are available in different dimensions and colors and produce environmentally friendly energy. The Sustainable Development Goals are a call to action to end poverty, protect the planet and ensure peace and prosperity everywhere. 3S Swiss Solar Solutions AG manufactures the energy-producing building envelopes of tomorrow.

What is 3S doing in the solar energy sector?

M.B: In the solar energy sector, we at 3S observe distinct trends in our primary markets. In Germany and Austria, the concept of building-integrated photovoltaics (BIPV) for roofs and facades is emerging, capturing significant interest due to our extensive experience and over 18,000 installations we have done already.
