

# Puerto Rico can we store solar energy

How much will Puerto Rico spend on solar & battery storage?

SAN JUAN, Puerto Rico: The U.S. Department of Energy announced on December 12 that US\$365 million will be allocated to install solar and battery storage systems in homes and healthcare centers across Puerto Rico.

How much money will Puerto Rico spend on a solar system?

Of the total funds, up to \$190 million will go to Puerto Rico's Housing Administration and a private company to finance solar and battery systems in public housing common areas and subsidized multifamily housing properties. An additional \$175 million will be directed toward healthcare and dialysis centers.

Does Puerto Rico have a solar loan guarantee?

The federal government has just finalized an \$861 million loan guarantee to fund what will be Puerto Rico's largest utility-scale solar and battery storage installations.

Could rooftop solar provide 75% of Puerto Rico's power?

Rooftop solar and storage could provide 75% of Puerto Rico's power, a report by nonprofit groups Cambio and IEEFA found in 2021. The report said that distributed solar and storage should be the focus for \$9.6 billion in US Federal Emergency Management Agency (FEMA) funds allocated for Puerto Rico's grid reconstruction.

Does Puerto Rico have a solar system?

While distributed solar and storage are advancing quickly in Puerto Rico, utility-scale solar and storage procurements ordered by regulators in 2020 have made little progress. Image: Wikimedia Commons, Francisco Jose Carrera Campos

How much solar power does Puerto Rico have?

Puerto Rico has also reached 680 MW of distributed-generation solar capacity, according to a US Department of Energy study - triple the amount of two years ago.

Clean energy solutions like solar-plus-storage can provide a reliable source of electricity while supporting new industries and local job growth. IREC is committed to helping Puerto Rico and the Caribbean islands move toward a ...
